

FIVE KEYS TO VIRTUAL CLASSROOM SUCCESS:

SECRETS OF MASTER TRAINERS

PREPARE RELENTLESSLY

Just like an Olympic athlete prepares for the games, master virtual trainers intentionally prepare everything!

ENGAGE PARTICIPANTS

Master trainers use the tools and dialogue to get participants to engage at least every 4 minutes.

MULTI-TASK EFFECTIVELY

Multi-tasking is an important skill for master trainers. It's simply a combination of preparation and speed.

MAKE THE MOST OF YOUR VOICE

Master virtual trainers make use of their "broadcasting" voice when connecting with participants in the live online classroom.

HANDLE CHALLENGES WITH GRACE

Technology issues may occur, yet master trainers stay calm and graceful while fixing the situation.
