TRAINING AND CONSULTING SERVICES

Signature Strategy Session

For organizations just getting started with virtual training or online learning.

A one-day, hands-on strategy session for organizations who are new to virtual training. This session starts with your unique definition of virtual training and then includes discussion on 4 key topics that should be considered when implementing virtual training.

Design Services

For organizations moving to the virtual classroom and wanting design assistance.

A half-day hands-on program to help organizations and/or designers move traditional classroom programs online. This service is often combined with a customized "designing engaging virtual training" workshop to complete the design team's knowledge in interactive virtual training techniques.

Training Workshops

For organizations who need to upskill their teams.

Tailored virtual train-the-trainer classes are available in both online and in-person formats. From upskilling your facilitators, working with your producers, or helping your managers lead virtual teams, Cindy's expertise in designing and delivering interactive learning programs will help you create a roadmap for success in your organization.
