TRAINING AND CONSULTING SERVICES

Signature Strategy Session

For organizations who need help creating robust online learning solutions and implementation planning support.

A series of hands-on meetings for organizations who need strategic support. We'll start with your unique definition of virtual training and then review 4 key topics that should be carefully considered in every virtual training strategy (design, facilitation, admin, and technology).

Design Services

For organizations moving to the virtual classroom and wanting design assistance.

Custom design services to help you create interactive online learning. Use these services if you need a partner to design for you, or if you want your instructional designers learn how-to create engaging blended programs. This service is typically paired with a tailored "designing engaging virtual training" workshop.

Training Workshops

For organizations who need to upskill their teams.

Tailored virtual train-the-trainer classes are available on multiple platforms (Zoom, WebEx, Adobe Connect, Teams, etc.). From upskilling your facilitators, working with your producers, or helping your managers lead virtual teams, Cindy's expertise in designing and delivering interactive learning programs will help you create a roadmap for success in your organization.
