

TECHNIQUES TO ENGAGE LEARNERS FROM THE START

Set

Expectations

Maintain an appropriate yet quick pace in the online classroom. Keep learners involved and engaged in activities that lead toward the learning outcomes.

Seek & Sustain Engagement

Invite participants to engage with the facilitator, with each other, and/or with the platform tools every few minutes during virtual events.

Communicate with learners ahead of time, and at every opportunity, to let them know it will be an interactive event.

Start Strong

Choose activities that let learners frequently interact with each other for dialogue and discussion.

Create a Social Experience Have on-screen activities ready for learners upon login. Invite interaction from the start.
